Ms. Kristin Mavromatis

Regional Sales Manager

Election Systems and Software

Hello, Kristin;

What a great time we had with your voting machine that you brought for the National Federation of the Blind Convention in late September.

So many of our Federation family and friends used this machine. Not one person found difficulty using this machine and all came away with the sincere hope that their local precinct would be equipped with this machine. I join them in this desire as I cannot still cast a secret ballot that is done by myself. With this machine I could truly join the millions of Americans who have the American right to cast a secret ballot. I will be glad not to need someone to push my buttons for me on election day.

We, the National Federation of the Blind of North Carolina, want to assist you in any way we can to help you put your fine products into our communities. This system took no training by what would be a pole worker. The final results were accurate and can be easily and independently checked by the user.

Let me know how I can help.

Thanks again for your time and for sharing your machines for voting with us.

Sincerely,

Dottie Neely,

Social Worker for the Bline, Guilford County

Chair-Greensboro Mayor's Committee for Persons With Disabilities

Board Member, National Federation of the Blind of North Carolina

CC: Tim Jones, President NFB of NC
